From: Dr. Rosanne Williamson
Re: Approval of Textbook Changes
Date: April 28, 2021

Recommendation

The attached list of recommended textbook changes for next year has been updated to include the ISBN as requested by the Board. The preliminary review of the textbook report was brought to the regular Board meeting on April 12, 2021, and we recommend approval at this board meeting.

Textbook Adoption Process and Timeline

Requests have been proposed by teachers and were reviewed by Instructional Supervisors and Associate Principals. While this compilation contains the majority of textbook changes, we may bring to the Board a limited number of texts in mid-summer as a result of summer curriculum projects.

Background

Textbook pricing is no longer included as part of new textbook proposals. On March 15, 2021, the Board of Education approved the implementation of a [Registration and Instructional Materials Fee for the 2021-2022 school year](#) in the amount of \$300, inclusive of all instructional materials required for the school year. This fee also covers the required textbooks.

[Board Policy 7180](#) Instructional Materials states: The Board of Education will approve and make available to students all required textbooks and other instructional materials which are requirements of any approved curricular offering or are required to be purchased by students in District #225.

MAI36300S-Algebra 2 363				Mathematics
D	DISCOVERING ADVANCED ALGEBRA	2003	15	
A				It's been 15 years since our last adoption in Algebra 263. Since then, and with the availability of online resources and teacher generated materials, we are seeking to eliminate the textbook for this course and instead, proceed to a model which will allow us optimal flexibility to best adapt curriculum to student needs, while using the expertise of teachers, teacher-generated materials, and open source resources (Delta Math, Kahn Academy, etc) and IXL, to deliver a more robust, up-to-date curriculum. An added benefit is that this will provide a significant cost savings to students and the district.
MAR26300N-Precalculus 163				Mathematics
D	Precalculus Enhanced with Graphing Utilities 5e	2009	11	
A	Precalculus Enhanced with Graphing Utilities 8e ISBN #13: 978-0882848976	2021		After reviewing several resources, we are seeking to update to the newest edition of our current text. This newer edition, provides My Math Lab access for students (an online, interactive learning platform) and more robust problem sets and resources that are better suited to the needs of our students and curriculum. (Please note that an alternative option would be to have the students purchase My Math Lab access only, and then purchase their own books, however, the team believes the students will benefit from both the textbook and digital I access.
