Re: Glenbrook High School Foundation Donation

Date: August 6, 2014

The District has received a donation of \$4,494.00 from the Glenbrook High School Foundation in support of the Chromebook 1 to 1 Initiative. The donation represents the student fees for all lower income students who are not supported by federal grant monies. A total of 142 students received Chromebooks for use during the 2013-2014 school year. I wish to commend the Executive Board of the Foundation for their tireless efforts to make this goal a reality. The Chromebooks provided to these students are a valuable resource and help bridge the technological gaps that exist within our school population. I recommend approval.
