Re: Consolidated District Plan

Date: June 24, 2019

Recommendation

The administration is seeking approval of the Consolidated District Plan for FY 2020 for the following grants: Title I, Part A, Title II- Part A, Title IV-Part A, IDEA, Part B Flow-Through and IDEA, Part B Preschool.

Background

The new Consolidated District Plan process strives to streamline the federal grant application and management process. The first phase of this new process includes the Board of Education approving Consolidated District Plan, which amounts to codifying the grants which we will continue to apply for and receive.

Approval of this plan is merely a procedural requirement and does not signal any change in the grants for which we apply or receive. The only difference in FY 2020 is that our Individuals with Disabilities Education Act (IDEA) grants that support special education services now require independent application by each district. In the past, all 18 districts that utilize the North Suburban Special Education District (NSSSED) Cooperative had these grants coordinated and applied for through the coop. District 225 has coordinated with NSSSED to prepare for this change.

Overview

PROGRAM:	Consolidated District Plan
PURPOSE:	The District Plan shall be developed with timely and meaningful consultation with teachers, principals, other school leaders, paraprofessionals, specialized instructional support personnel, charter school leaders, administrators, other appropriate school personnel, and parents of children in schools served under the Every Student Succeeds Act (ESSA) legislation, and as appropriate, is coordinated with other programs under ESSA, the Individuals with Disabilities Education Act (20 U.S.C. 1400 et seq.), the Rehabilitation Act of 1973 (20 U.S.C. 701 et seq.), the Strengthening Career and Technical Education for the 21st Century Act (20 U.S.C.2301 et seq.), the Workforce Innovation and Opportunity Act (29 U.S.C. 3103 et seq.), the Head Start Act (42 U.S.C. 9831 et seq.), the McKinney-Vento Homeless Assistance Act (42 U.S.C. 11301 et seq.), the Adult Education and Family Literacy Act (29 U.S.C. 3271 et seq.), and other Acts as appropriate.

2. General Education Provisions Act (GEPA) Section 427 *

Section 427 of GEPA (20 U.S.C. 1228a) affects all applicants submitting proposals under this program. This section requires each applicant to include in its proposal a description of the steps the applicant proposes to take to ensure equitable access to, and participate in, its federally assisted program for students, teachers and other program beneficiaries with special needs.

This provision allows applicants discretion in developing the required description. The statute highlights six types of barriers that can impede equitable access or participation: gender, race, national origin, color, disability, or age. The applicant should determine whether these or other barriers may prevent students, teachers, etc. from such access to, or participation in, the federally funded project or activity. The description of steps to be taken to overcome these barriers need not be lengthy; the school district may provide a clear and succinct description of how it plans to address those barriers that are applicable to its circumstances. In addition, the information may be provided in a single narration, or, if appropriate, may be discussed in connection with related topics in the application.

Section 427 is not intended to duplicate the requirements of the civil rights statutes, but rather to ensure that, in designing their programs, applicants for federal funds address equity concerns that may affect the ability of certain beneficiaries to fully participate in the program and to achieve high standards. Consistent with requirements and its approved proposal, an applicant may use the federal funds awarded to it to eliminate barriers it identifies.

Describe the steps that will be taken to overcome barriers to equitable program participation of students, teachers, and other beneficiaries with special needs.

([count] of 2500 characters used)

Equitable access to all and unlimited participation in any Federally funded programs will continue to be available to teachers and other staff, family members and other stakeholders, and all other beneficiaries with special needs and all others involved in their care, education and success. The district will not knowingly enter into agreements with any entity or individual that discriminates on the basis of any protected status. Further steps are listed in BOE policy.

3. General Completion Instructions

Work through the tabs from left to right. Save each page before moving to the next tab.

Required fields on each page are dependent upon funding sources selected on the Coordinated Funding tab.

Many pages have notes at the bottom indicating for which programs the page is required.

To determine if a page is required for the funding sources selected earlier in the application, save the page before completing and look for error messages. If none, the page is not required for the program(s) selected.

How to Complete Pages with Pre-populated Fields

Several pages have two boxes below the narrative questions - one has the response from the prior year plan and the other allows responses for the updated plan. Copy the response from the redisplay and paste it into the updated plan box, revising the description as necessary. Be sure to save the page once this has been completed for all questions on the page.

Some pages display sections based on which grants were selected on the Funding page as anticipated as funded. To change the sections that display, return to the Funding page and select or de-select grants for which funding is anticipated.

Program Risk Assessment pages must be completed for FY2020. In future years, those responses are expected to pre-populate in the grant, with an opportunity for the entity to review and revise as necessary.

Federal funds are used to support allowable activities such as professional development based on needs assessments, consultation, costs to purchase instructional materials and equipment, purchased services from other government entities for special education and related services, and pay staff salaries, as deemed appropriate, to improve the educational results for students supported by the grant. In accordance with the IDEA 2004 regulations, the district may use up to 15% of IDEA Part B flow-through funds to support District-wide Response to Intervention efforts/early intervention for students not identified as needing special education but who need additional support to succeed in general education. They provide supplemental funds to state and local resources to ensure that all children with disabilities ages 3 through 21 (inclusive) receive a free appropriate public education in the least restrictive environment. In no case are the funds used to supplant state and local funds. Funds are also used to supplement support provided to EL students and students at risk of academic failure through state and local resources.

A. Title I, Part A - Improving Basic Programs

Glenbrook South High School operates a Targeted Assistance Program designed to provide academic interventions and other support for students at risk of school failure. Generally, subgroups that underperform their white or Asian peers include Hispanic, Black, low income, and students with an Individual Education Program. The goal of the program is to ensure that students meet rigorous State academic standard. Provide support to homeless children in grades 9-12 at Glenbrook South H.S. that improves attendance and engages homeless students in the general school curriculum on a consistent basis. Homeless students' average attendance rate will match or exceed that of their non-homeless peers.

Also identify needs assessment results, including description of strategies for closing any achievement gaps and for key professional development opportunities for teachers and principals.

Ongoing consultation with stakeholders identified the needs this grant is responsive to. Specifically, school leaders, parents and students recognize the need to recruit and retain new teachers as well as provide professional development to teachers that is responsive to individual teacher needs while at the same time addresses needs identified through data indicative of student needs related to closing the achievement gap and social-emotional learning. The Title II program will have a focus on new teacher professional development and retention through the establishment of mentor teachers for each new teacher. The mentor program is a two-year program for all teachers new to the district. This supports equity in teacher experience and effectiveness. Most teachers new to our district come with 3-5 years of teaching experience; however, some are new to the profession. The mentor program provides personalized professional development for new teachers based upon their years of experience and professional learning needs. Professional development for all teachers is designed with the goal of meeting the diverse needs of students. Illinois Youth Survey data show that there is a need to address student social-emotional well-being, mental health and substance use. Teachers receive stipends for curriculum development work and providing in-house professional development to better meet student needs in the areas of student social-emotional well-being, mental health and substance use. Teachers will participate in curriculum development projects to promote implementation of research-based instructional strategies that improve student achievement.

G. Title III - LIEP

The Title III program is designed to meet the needs of English Learners. Needs identified include the development of academic vocabulary and English proficiency levels with performance levels on the ACCESS exams sufficient to exit the EL program. Once students exit the EL program, their academic progress continues to be monitored and supported.

H. Title III - Immigrant Education Program

The Immigrant Education Program is designed to meet the language learning needs of immigrant students and support students in assimilating to a large U.S. public high school.

I. Title IV, Part A - Student Support and Academic Enrichment

Also provide information for Title IV-A programs and activities planned as a result of needs assessment that align with the Title IV-A budget.

Ongoing consultation with stakeholders identified the needs this grant is responsive to. Specifically, school leaders, parents and students recognize the need to provide professional development to teachers that is responsive to individual teacher needs while at the same time addresses needs identified through data indicative of student needs related to closing the achievement gap and social-emotional learning. Title IV is designated primarily for professional development in the areas of social emotional learning, growth mindsets, identity and (digital) citizenship.

J. Title V, Part B - Rural and Low Income Schools**K. IDEA, Part B - Flow-Through [1]**

AREAS OF NEED (related to student achievement, subgroup performance, and resource inequities): Needs assessments continue to demonstrate the need for additional resources for special education, related services, and supplementary aids and equipment to ensure students with significant disabilities receive a FAPE. Student achievement data continues to show gaps in comparisons of general education and special education students. Review student services data (e.g. referral, safety assessments, homebound certifications) data reveals a rise in mental health issues are on the rise increasing the number of students who may qualify for IDEA eligibility. There is a need to provide specialized evaluations and services for students, and consultation, training/professional development, and support for staff and families. Based on administrative and staff professional development plans and feedback forms, staff continues to require training and professional development based on identified areas for professional growth, including assessment, curriculum and instruction, behavior/social/emotional topics, IDEA legal requirements and IEP development, inclusive practices, teaming practices, and disability-specific strategies (e.g. autism, dyslexia, etc.) Resources are allocated to the district therapeutic day school to address possible inequities in non-academic and extra-curricular activities since students are not in the larger building or based on the nature of their individual disability may be unable to participate in the general education setting, even with supplementary aids and supports. Additionally, Glenbrook contracts with NSSED for programs, services and professional development. NSSED assesses needs by meeting with each member district Superintendent, Special Education Director and Chief School Business Officer to collaboratively review student data and share district goals and initiatives. These meetings reflect patterns and priorities across districts in serving students with special needs and inform the focus for professional development, programming and services. Parent leaders from each district meet monthly with cooperative administrators to share areas of need for programming and services for their children and training for the broader parent community. Results indicate the focus for next year will be in the following areas: Positive Behavior Supports, Instructional Strategies for All Learners, Professional Learning, Social Emotional Learning, Team Based Data Driven Assessment and Collaborative Teaming. HOW NEEDS ASSESSMENT IS USED FOR IDEA PROGRAM GRANT ACTIVITIES: IDEA grant monies will be used for several purposes based on the needs assessment and needs summarized above. The majority of funds will go towards payments for services invoiced by NSSED and other agencies for additional resources for special education, related services, and supplementary aids and equipment to ensure students with significant disabilities receive a FAPE. Research-based curricular materials, training, and coaching (for reading, writing, and math instruction and assistive devices) will be used to support instruction in academic skills, functional performance, and independent living to improve educational (academic, functional, college, and career-readiness) results. Assessment and progress monitoring tools will also be included to efficiently and effectively collect and analyze data for decision-making. These identified resources will supplement/fill gaps in existing resources. Training and professional development will be provided (at the local, state, and national level) based on best practices and identified areas for professional growth, including assessment, curriculum and instruction, behavior/social/emotional topics, IDEA legal requirements and IEP development, inclusive practices, teaming practices, and disability-specific strategies (e.g. autism, dyslexia, etc.) Resources will be allocated to expand non-academic and extra-curricular opportunities to students in the district therapeutic day school, including additional equipment for robust STEM opportunities, pre-vocational/vocational experiences, and participation in athletic alternative leagues. Connectedness and engaging opportunities increases students' motivation and academic achievement. Additionally, through a contract with NSSED, IDEA funds will be used for students enrolled in special education instructional programs and the systems that support those programs and services (administrative, office support, insurance policies for property, casualty or student accident, technology support); 200 on site professional development opportunities for member district and cooperative staff focused on students with disabilities: costs associated with speakers, conference attendance, travel and facility rental; staff to manage internal technology infrastructure and outside contractual services; maintenance agreements for information systems such as Tyler Infinite Visions and Tyler SIS, MIDAS Education, Frontline and School Dude.

Timely and meaningful consultation with these schools is required by legislation for ESEA Titles I, II, and IV, as well as both IDEA grants. Any additional newer schools can be added by selecting Create Additional Entries. See separate sections below for more detailed information on completing the table.

Title Programming Nonpublic Consultation

In addition to private schools within the district boundaries, ESEA also requires timely and meaningful consultation with private schools outside the boundaries of the district if students are known to attend them. Those schools can be added by selecting Create Additional Entries. For each school listed, provide the date of consultation for Titles I, II, IV. The instructional program is designed to offer the greatest possible flexibility in meeting the educational needs of a diverse student population. While preparing students with a solid foundation of basic skills in traditional academic courses, the curriculum offers opportunities for students to extend their abilities with considerable depth and breadth. The curriculum is designed not only to address what students do in the learning situation but also with what they will learn and be able to do as a consequence of it. Individual needs are recognized by the fact that almost 160 different courses are offered. Both schools boasts an outstanding instructional staff who are committed to helping each student toward the goal of reaching his or her maximum potential. Many of the staff have gained state and national recognition for contributions they have made to their profession. Through this variety, the student is able to gain a strong basic academic background as well as a broad learning experience in fields of special interest. The student's instructional and personal needs are supplemented by a student services staff that includes counselors, social workers, school psychologists, and school nurses. The unique needs and interests of the students are also served by extensive student activities and athletic programs, which not only provide an opportunity for each student to become involved in the life of the school, but also develop within the student a desire to achieve excellence.

We have a very strong articulation program with our middle schools. Placement of students in high school courses and potential supplemental academic intervention programs is discussed with eighth grade teachers on a student-by-student basis. Terra Nova test scores are also utilized as part of the placement process. Most incoming freshmen participate in a transition to high school program called Peer Group which is facilitated by teachers and grade 12 senior student leaders. This program runs during the entire school year. Our district has been in a recent partnership with Oakton Community College related to the further development of dual credit courses and placement of our students in Oakton's programs once they graduate from high school. Some students take advantage of concurrent enrollment opportunities, as well. University representatives from colleges across the nation visit our campus to provide students with information regarding the programs offered by their institutions. Besides this, students may access local employers and partners through the Inspire Your Future program coordinated through our Career and Technical Education Department. This program also helps students identify potential future interests and skills.

The district has a bullying policy and recently updated student discipline policies designed to keep students engaged in the classroom. It is the policy of the Board of Education to foster an environment which maximizes student learning and employee performance, and a climate of civility among students and employees of the district. The Board recognizes that there are certain behaviors and types of conduct that, if tolerated, would have a significant negative impact upon the learning environment and to complete effective teaching and learning. These behaviors, characterized as hazing, bullying, or aggressive behavior, will not be tolerated. Special considerations are taken when addressing bullying in students with disabilities. There are resources to help kids with disabilities who are bullied or who bully others. Through the Individualized Education Programs (IEPs) or Section 504 plans we craft specialized approaches for preventing and responding to bullying. Additionally, when bullying is directed at a child because of his or her established disability and it creates a hostile environment at school, bullying behavior may cross the line and become "disability harassment." Under Section 504 of the Rehabilitation Act of 1973 and Title II of the Americans with Disabilities Act of 1990, the school addresses the harassment.

1. Describe the process for determining the best interest of the affected child for placement if the child is placed into foster care or changes residences while in foster care. Include the positions of all district personnel involved.*

Be sure to include the factors that should be considered in determining whether remaining in a child's school of origin is in his or her best interest, as it relates to ensuring school stability.

For your convenience, the FY19 approved response is provided below. It may be copied and modified to address the Foster Care Transportation Plan needs.

When a student is placed in foster care or changes residence while in foster care, the CWA (Child Welfare Agency) worker assigned to the student notifies the child's current school. If the child moves to a new residence and is not in the same school zone, the foster care point of contact (POC) for the district is notified and invited to participate in the Best Interest Determination (BID). The CWA worker, foster care POC and other essential members of BID share information on the appropriateness of the current educational setting. The CWA takes into account this information and the distance from the potential placements to the child's current school in the decision-making process. The SOO (school of origin) transportation designee identifies the potential ways that the child could be transported. This information is given to the foster care POC to include in the BID.

Students who are eligible for services under the Individuals with Disabilities Education Act or Section 504 of the Americans with Disabilities Act shall be entitled to all rights and services granted to them under these Acts and will have the same protections as students that are not in foster care. Students who are eligible for special education transportation as a related service will be provided with this support under the IDEA. All accommodations and supplementary aids and services designated by a child's Individual Education Program or Section 504 accommodation plan will be provided as designated in the IEP or 504 Plan. The following factors are considered: Whether the child is a student with a disability under the IDEA who is receiving special education and related services or a student with a disability under Section 504 who is receiving special education or related aids and services and, if so, the availability of those required services in a school other than the school of origin. There shall be no lapse in services.

Foster care students shall be transported in accordance with all legal requirements. The Superintendent has appointed a Point of Contact (POC) with the Child Welfare Agencies (CWA). The POC will interact with the child's School of Origin (SOO) and will ensure that the student living in foster care is transported. If an agreement between the district and the Child Welfare agency cannot be reached, the student must remain in his or her school of origin while any dispute regarding transportation costs are being resolved. If there is a disagreement regarding school placement for a child in foster care, the child welfare agency should be considered the final decision maker in making the best interest determination (unless state law or policy dictates otherwise). The child welfare agency is uniquely positioned to assess vital non-educational factors such as safety, sibling placements, the child's permanency goal, and the other components of the case plan. The child welfare agency also has the authority, capacity, and responsibility to collaborate with and gain information from multiple parties, including parents, children, schools, and the court in making these decisions.
