RE: PRELIMINARY REVIEW of TEXTBOOK CHANGES  
DATE: April 13, 2020

### **Recommendation**

The attached list of recommended textbook changes for next year is being presented for the Board's preliminary review. It is my intention to resubmit this item on the consent agenda for approval at the regular Board meeting of April 27, 2020.

### **Textbook Adoption Process and Timeline**

Requests have been proposed by teachers and were reviewed by Instructional Supervisors and Associate Principals.

While this compilation contains the majority of textbook changes, we may bring to the Board a limited number of texts in mid-summer as a result of summer curriculum projects.

### **Digital Resources Update**

With 1:1 Chromebook implementation, many digital textbooks and resources are proposed for adoption. Cost-savings associated with digital resources are substantial. There is no buy-back for digital versions of textbooks; however, the greatly reduced price far exceeds what parents would receive in buy-back of print textbooks. Textbook ISBN numbers are provided for families who wish to purchase print versions of digital textbooks.

Re: Textbook Adoptions for 2020-2021

Attached you will find one document that summarizes the request for textbook adoptions: *Textbook Change Summary 2020-2021*.

The curriculum at GBS continues to evolve through the Educational Planning Process, the AP Audit, articulation with sender districts, research in best practices, and the ever changing needs of our at-risk students. GBS continues its focused work on curricular alignment, backward design, instructional strategies, and equitable practices. This work has led faculty in their professional conversations related to best practices related to discipline standards, essential questions, and differentiated instruction. The school focus has led to the examination of current texts and the voices represented in those texts. Some of the choices for new texts are an outcome of the continued work of these course teams as they reflect on appropriate, relevant and engaging material for students.

Along with these curricular changes, come requests for changes in a number of textbooks in English (1), mathematics (3), driver education (1), science (5), social studies (2), special education (2).
