

To: Dr. Charles Johns  
From: Dr. Rosanne Williamson  
Re: Preliminary Review of Textbook Changes  
Date: April 12, 2021

### **Recommendation**

The attached list of recommended textbook changes for next year is being presented for the Board's preliminary review. It is my intention to resubmit this item on the consent agenda for approval at the regular Board meeting of April 26, 2021.

### **Textbook Adoption Process and Timeline**

Requests have been proposed by teachers and were reviewed by Instructional Supervisors and Associate Principals. While this compilation contains the majority of textbook changes, we may bring to the Board a limited number of texts in mid-summer as a result of summer curriculum projects.

### **Background**

Textbook pricing is no longer included in as part of new textbook proposals. On March 15, 2021 the Board of Education approved the implementation of a [Registration and Instructional Materials Fee for the 2021-2022 school year](#) in the amount of \$300, inclusive of all instructional materials required for the school year. This fee also covers the required textbooks.

[Board Policy 7180](#) Instructional Materials states: The Board of Education will approve and make available to students all required textbooks and other instructional materials which are requirements of any approved curricular offering or are required to be purchased by students in District #225.

<b>MAI36300S-Algebra 2 363</b>				<b>Mathematics</b>
D	DISCOVERING ADVANCED ALGEBRA	2003	15	<p>It's been 15 years since our last adoption in Algebra 263. Since then, and with the availability of online resources and teacher generated materials, we are seeking to eliminate the textbook for this course and instead, proceed to a model which will allow us optimal flexibility to best adapt curriculum to student needs, while using the expertise of teachers, teacher-generated materials, and open source resources (Delta Math, Kahn Academy, etc) and IXL, to deliver a more robust, up-to-date curriculum. An added benefit is that this will provide a significant cost savings to students and the district.</p>
A				
<b>MAR26300N-Precalculus 163</b>				<b>Mathematics</b>
D	Precalculus Enhanced with Graphing Utilities 5e	2009	11	<p>After reviewing several resources, we are seeking to update to the newest edition of our current text. This newer edition, provides My Math Lab access for students (an online, interactive learning platform) and more robust problem sets and resources that are better suited to the needs of our students and curriculum. (Please note that an alternative option would be to have the students purchase My Math Lab access only, and then purchase their own books, however, the team believes the students will benefit from both the textbook and digital access.</p>
