RE: PRELIMINARY REVIEW of TEXTBOOK CHANGES
DATE: April 4, 2018

Recommendation

The attached list of recommended textbook changes for next year is being presented for the Board’s preliminary review. It is my intention to resubmit this item on the consent agenda for approval at the regular Board meeting of April 23, 2018.

Textbook Adoption Process and Timeline

Requests have been proposed by teachers and were reviewed by Instructional Supervisors and Associate Principals. Copies of the textbooks will be available for viewing at Associate Principals’ offices of respective schools. Ed Solis, Associate Principal at Glenbrook North, Cameron Muir, Associate Principal at Glenbrook South, and Instructional Supervisors will be at the meeting to assist in addressing questions.

While this compilation contains the majority of textbook changes, we may bring to the Board a limited number of texts in mid-summer as a result of summer curriculum projects.

Digital Resources Update

With 1:1 Chromebook implementation, many digital textbooks and resources are proposed for adoption. Cost-savings associated with digital resources are substantial. There is no buy-back for digital versions of textbooks; however, the greatly reduced price far exceeds what parents would receive in buy-back of print textbooks.

Re: Textbook Adoptions for 2018-2019

Attached you will find the 2018-2019 Glenbrook North Textbook Change Summary document. The GBN curriculum has continued to evolve through the curriculum review process. The availability of digital resources, addition of new courses, and updates of curricular resources, support the ongoing literacy initiatives. With these initiatives, changes in textbooks emerged from the following areas:

- CTE (3)
- Math (2)
- Science (3)
- Social Studies (2)
- World Languages (7)

Re: Textbook Adoptions for 2018-2019

Attached you will find one document that summarizes the request for textbook adoptions: *Textbook Change Summary 2018-2019*.

The curriculum at GBS continues to evolve through the Educational Planning Process, the AP Audit, articulation with sender districts, research in best practices, and the ever changing needs of our at-risk students. GBS continues its focused work on curricular alignment, backward design, and instructional strategies. This work has led faculty in their professional conversations related to best practices in those areas. The recently adopted Technology Vision along with efforts over recent years to incorporate technology into the classroom and capitalize on online sources influences and informs the decision related to instructional materials. Some of the choices for new texts are an outcome of the continued work of these course teams as they reflect on appropriate, relevant and engaging material for students.

Along with these curricular changes, come requests for changes in a number of textbooks in English (10), ELL(10), mathematics(5), science (2), social studies (9), special education (26) and world language (19).
