Re: Removal of the School Bus Mask Mandate

Date: March 14, 2021

Recommendation

The administration is seeking approval to Remove the School Bus Mask Mandate effective Tuesday, March 15, 2022.

Background

On February 19, 2022, the Board of Education approved a conditional mask-recommended plan, effective on that date, that included the condition that masks must be worn on buses and school transportation per federal law.

The federal law on masking on public transportation was removed effective February 25, 2022, and it is necessary to have a mask mandate for public transportation.

The administration has a plan to communicate and facilitate this change.
