RE: **DISCUSSION/ACTION: APPROVAL OF GBN FIELDHOUSE BASKETBALL BASKET BID**

RECOMMENDATION

1. It is recommended that the Board of Education approve the purchase of 12 basketball baskets for the GBN fieldhouse from Carroll Seating at a price of $46,266.

2. It is recommended that the Board of Education approve a change order to MG Electric's contract in the amount of $7,800 to provide the necessary wiring for the 12 additional basketball baskets.

3. It is recommended that the Board of Education approve this expenditure as part of GBN's FY 12/13 capital outlay, meaning, the district will pay the expenditure this summer and then deduct $54,066 from GBN's FY 12/13 building allocation.

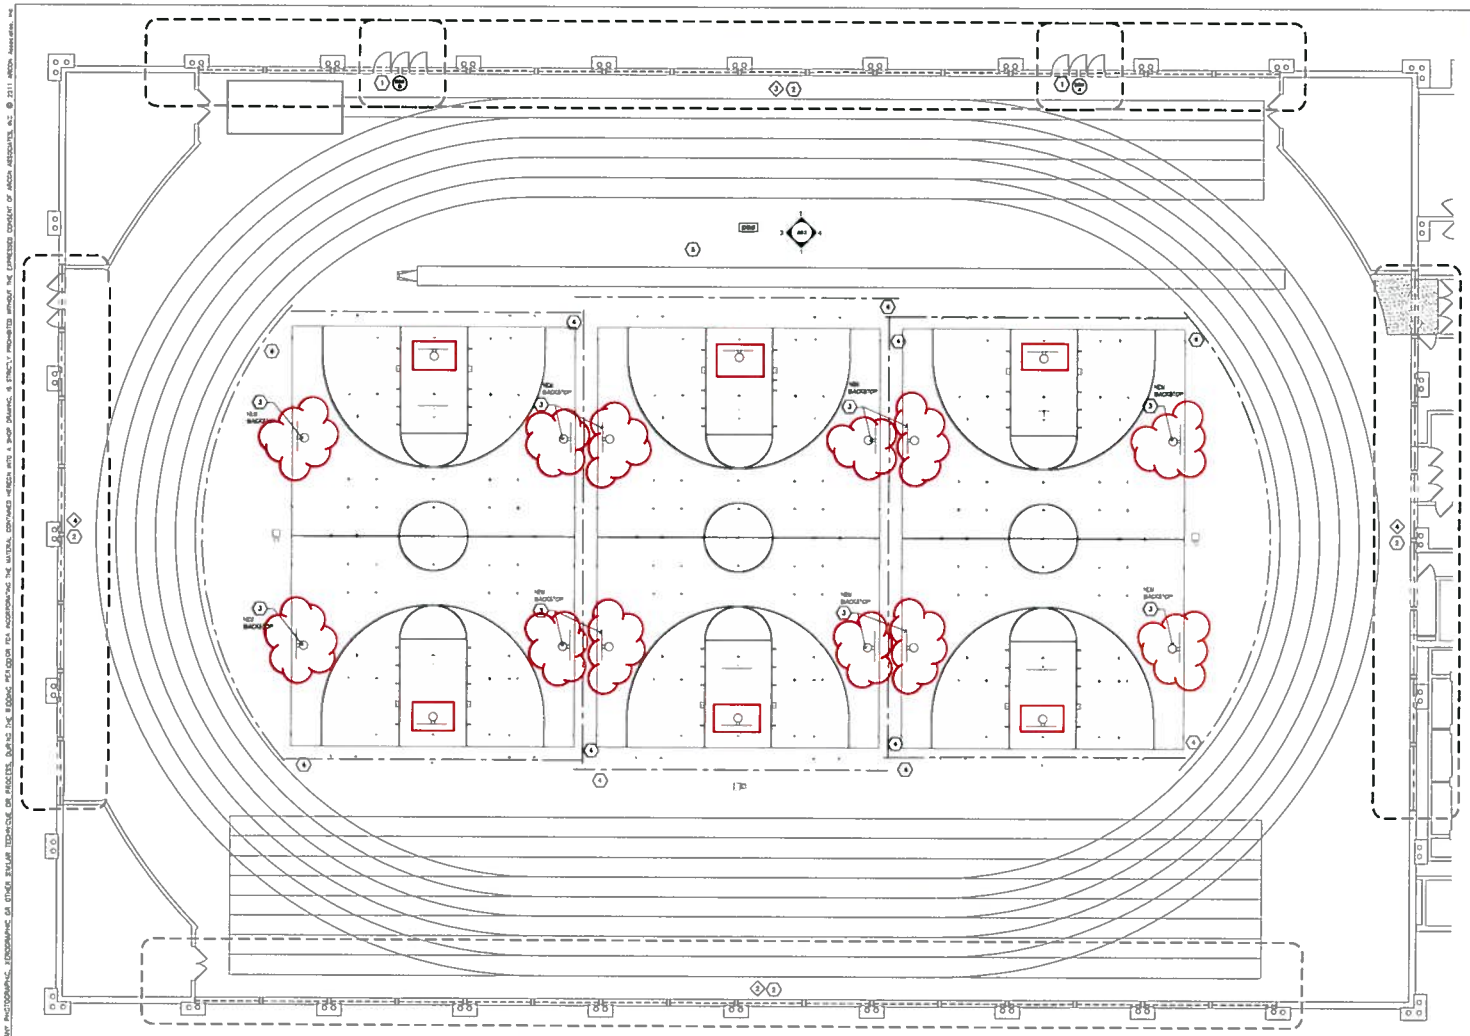
BACKGROUND

As discussed at the April 25, 2011 board meeting as well as at the March 8, 2011 facility committee meeting, the fieldhouse at GBN has three courts in the center of the running track. Each court currently has 2 end baskets for basketball, making a total of 6 baskets. In order to more effectively use the fieldhouse for individualized shooting and development drills, the ideal layout would have a total of 18 baskets. This layout creates a total of six ½ courts or six baskets per court, which would mirror the layout GBS will have with its new fieldhouse floor. This also ensures equity and consistency of basketball courts used for both practices and PE at GBN. See attached drawing.

The baskets were planned to be part of GBN's FY 12/13 capital outlay list, however, since there is significant work occurring in the fieldhouse this summer (new floor, new translucent panel system, painting of walls and ceiling) it is more cost effective for the work to be done this summer as opposed to the following summer and will avoid potential damage to the new flooring.

BID RESULTS – 12 Baskets

Carroll Seating Company	$46,266
Larson Equipment	$62,800
Estimate	$50,000



NEW CONSTR.- SCOPE OF WORK NOTES SHT A1.8

1. INSTALL NEW GALV. HM DOOR AND FRAME. SEE DOOR AND FRAME SCHEDULE ON SHEET A2.1 FOR DETAILS. PATCH AND PAINT ANY DAMAGED MASONRY/FIRE SHIELD OF EXISTING OPENING DAMAGED DURING DEMOLITION
2. INSTALL NEW 1.5" TRANSLUCENT FIBERGLASS SANDWICH PANEL SYSTEM IN ENTIRE CLERESTORY OF THE FIELD HOUSE. SEE ENLARGED TYPES FOR ELEVATION AND DIMENSIONS OF CLERESTORY WINDOWS
3. INSTALL NEW BACKSTOPS, SUPPORT STRUCTURES, MECHANICAL MOTORS, ETC., AS WELL AS IN-FLOOR SLEEVES.
