RE: DISCUSSION/ACTION: AWARD of BID FOR DRIVER EDUCATION VEHICLES

Recommendation

It is recommended that the Board of Education:

1. Approve the purchase of eight driver education vehicles.
2. Trade-in the current seven driver education vehicles.

Background Information

The district currently owns seven Toyota Prius driver education vehicles, four at GBN and three at GBS. The vehicles are eight years old and are no longer under warranty. Due to driver education enrollment increases at GBS, it is recommended that the district increase its overall fleet from seven cars to eight. The administration at both schools has verified that four cars at each school will meet the projected enrollment needs.

A purchase of this type requires a publicly advertised bid for a period of 10 days. There are dealer incentives offered by Toyota that expire at the end of March. In order to meet the legal bidding requirement of advertising for a 10 day period and take advantage of dealer incentives, bids will be opened on Monday March 23, 2015 and bid results will be brought to the board meeting.

The district is comparing pricing of both the 2015 Toyota Prius and the 2015 Toyota Camry LE Hybrid. The hybrid cars are desirable from a fuel standpoint. It is estimated that the current Toyota Prius uses about \$450 of gas per year for 6,000 miles which equates to \$.075 per mile.

Both models come with the following warranty –
3 years or 36,000 mile Bumper-to-Bumper
5 years or 60,000 mile Power Train
8 years or 100,000 mile Hybrid system
2 years of maintenance

The purchase will be financed through a 5-year \$1 buyout lease. Lease quotes will be brought to an April board meeting. It is anticipated that the district will be able to sell the existing seven Prius cars for approximately \$7,000 each. The trade-in price for the cars is part of the bid package.
