Re: FTE Adjustment/Bonnie Foster, Special Education/GBN and Off Campus

Date: August 30, 2010

---

I have received a recommendation from the administration at Glenbrook North to increase the contract of Bonnie Foster from .8 FTE to 1.0 FTE for the 2010-11 school year. The additional contractual time will allow Ms Foster to execute her duties both at GBN as well as meet the needs of students at the Off-Campus Center. She has a teaching schedule at both facilities.

This increase in contractual time for Ms Foster is within the FTE guidelines approved by the Board of Education for the 2010-11 school year.

I recommend the Board approve this .2 increase in contract. This increase amounts to an additional \$14, 294 of compensation.

---

Bonnie Foster is moving from a .8 from the 2009-10 school year to 1.0 for the 2010-11 school year. She will be assigned to .4 at Glenbrook Off Campus and a .6 at GBN.

I would be happy to provide any other information if you need it for this change in teaching assignment and FTE.
